# Bahria University

## How does it uphold its values?

Bahria University started off its operations in year 2000, and the journey towards becoming a university began when Pakistan Navy, because of its inherited experience in education, started offering evening classes to a small proportion of students in the disciplines of Management Sciences and Computer Sciences. Over a short time period of just 14 years, Bahria University has its presence all over the world in the form of its alumni and ex-employees. With presence in three of the largest cities in Pakistan, Islamabad, Karachi and Lahore, Bahria University now has an ever-growing largest student body. Its students, engineers, lawyers, doctors, entrepreneurs, and managers, share values with each other, based upon a common brotherhood, under a brand that has its reach beyond geographical boundaries. A federally chartered university with recognitions from HEC, PEC, PM & DC, and PBC, Bahria University offers its students a secured and non-political environment with its founding roots in Pakistan Navy. Highly-qualified faculty members, high-tech modern infrastructure, international linkages and academic partnerships with various universities all around the globe, a generous scholarship program, a separate unit for research and development, a highly active Student Research Center with numerous clubs and student societies, and now finally a platform that links all of its three campuses together, creates a synergetic effect offered by none other in the country.

## Presence in three of the largest cities in Pakistan; Islamabad, Karachi and Lahore

To bring the best to its students and to expose them to as many opportunities as possible, Bahria University has taken a constructive step towards bringing all of its three campuses on one platform - a platform where students will come together, explore, discover, travel, learn, bond and form a community. Students of Bahria University in Islamabad, Karachi and Lahore will travel back and forth to BU campuses taking part in different activities and explore academic and professional opportunities. They will become part of student exchange programs, competitions, multi-cultural events, career counseling, and numerous academic and professional experiences in all three cities. Becoming a part of Bahria University means having access to a network of resources offered by all three campuses, an opportunity to travel and interact with students from all over the world, and an unsurpassed exposure to diverse cultures and environments.

We are headed for a future in which educational institutions will increasingly be judged by the quality of the education they provide, by the kind of people they graduate, by the way in which those graduates choose to lead their lives. And we at Bahria University have been striving constantly to meet these challenges.

## The Campus at Lahore

The lauded experience and response from campuses at Islamabad & Karachi, Bahria University has launched its Campus in Lahore in Sept 2013. The campus is fully recognized by HEC. It is ideally situated in Johar Town, a prime location of Lahore. The building is structured in a way as to cater any environmental change. It has state-of-the-art laboratories and classrooms dedicated for research based teaching, well-stocked library with access to HEC digital library, Student Resource Center with a dedicated placement office, best student to faculty ratio, medical cover to students/staff/faculty, secure and a disciplined environment, availability of scholarships on merit/need basis/indigent etc. Bahria University Lahore Campus is committed to achieving high standards in both, teaching and research in order to be well placed in the international scenario.

On 23rd Dec 16, Bahria University Lahore Campus procured land for its new purpose built campus at Dream Gardens, Lahore.

# Bahria University

## International Linkages

For every university, to excel and to provide its students with as many opportunities as possible, it is important to have International Linkages and Academic Partnerships. For that matter, Bahria University has international linkages with various national and international universities. MoUs have been signed with these universities in different areas of collaboration like Student Exchange Programs, Student Visits, Faculty Visits, Faculty Training and many more.

## BU International Linkages

# Career Services at Bahria University

As one of the nation's leading universities, Bahria University realizes its responsibility of facilitating its students and alumni when it comes to their careers. It is also our duty to provide the industry with competent workforce that will lead the way towards a prosperous and progressive future for our generations to come. We, at Bahria Career Offices in all three campuses, not only provide our students and alumni with career counseling but we also make sure that they have internship and job

opportunities right at their doorsteps.

Bahria University holds yearly Career/Job Expos in which leading national and multinational companies participate and communicate directly with students. The overall grooming Bahria University provides to its students during their academic years results in excellent career opportunities. And that's the reason why the reach of BU in the corporate sector is far and wide.

## Office of Research and Commercialization at Bahria University

The Office of Research and Commercialization was established in Bahria to introduce a culture of research, to develop the spirit of innovation and entrepreneurship among its students, faculty and staff, and to establish a link between the university and the industry.

Since its establishment in year 2010, the office, within a very short period of time has been able to achieve significant success in its field. A few of its achievements are given below:

### Business Incubation Center

This center basically provides support, services and resources for the successful development of the entrepreneurial ventures of BU students. Students are provided with office space, all the facilities, finances, and also professional guidance. In short, this center is basically a platform where students can become entrepreneurs and fulfill their dreams.

### Microsoft Innovation Center (MIC)

Bahria University signed an MoU with Microsoft for the establishment of the Microsoft Innovation Center. MIC is a platform for collaboration on innovative research involving hardware, software and skill sets provided by Microsoft.

### Center for Entrepreneurship and Leadership

The Center for Entrepreneurship and Leadership was formed under an MoU signed with Ministry of Finance and Business Support Fund. The Center aims at strengthening the abilities of students, staff and faculty with a main emphasis on the field of Entrepreneurship and Leadership. The long term vision of the center is to initiate trainings for the corporate sector being conducted, organized at the University with the Faculty Members being the key resource persons.

## Bahria University extends a helping hand Bahria Community Support Program

“Passion that lays dormant inside a person gets ignited when given a chance through interaction and experience.”

Rector Bahria University, Pakistan

Bahria University has embarked upon the journey of Community Support Program, and has resolved to make a difference in the lives of as many people as possible. Today, Bahria University stands as an emblem of quality education, and a staunch supporter of a philosophy that an act of conviction and compassion can make the world a better place. Our dedication and our fortes enable us to come forward and give back to the community in which we live, in every possible way and to contribute like a drop in the sea that brings to life waves that go far and wide. The impoverished masses and the needy are as much a part of this community as we are and it gives us great pleasure in extending a helping hand that might not cause trembles but would definitely cause reverberations. We strive to make a difference in the fields of education, health (including psychological issues), peace, tolerance, protection and promotion of human rights, observance of the rule of law, environment, sustainable development,

media, marine sciences, and conflict resolution with emphasis on trainings and skill enhancement. Bahria University is the first-ever university in Pakistan to have linked its degree program with community support program. It is mandatory for every student to complete 40 hours of community work to obtain his or her degree. Time and again, students have been raising their voice against crimes such as violence against women, child abuse, child labor, illiteracy, poverty and many more. Bahria University is working with various non-profit organizations and NGOs that are also working towards the betterment of the society.

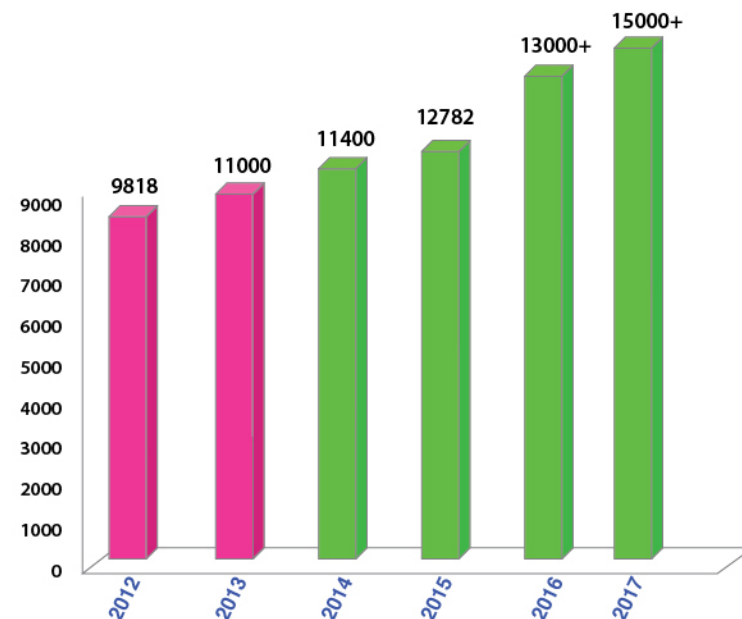

# Bahria University Student Strength

With presence in three of the largest cities in Pakistan, Bahria University now has a student body of more than 15,000 students.

This student body is integrated into one whole. Students from all the three campuses get a chance to travel, learn, explore and form a community. Being a part of BU means having access to resources of all the three campuses.

- Overall growth in students' strength
