CHAPTER 9

⇒ General Tips
9.1 Make regular visits to the University website www.bahria.edu.pk where you will see more details about your programme.

9.2 You may want to meet with a teacher before you sign up for a course.

9.3 Read the course description ahead of time and verify that you meet the pre-requisites (if any) indicated.

9.4 Ask other students what their impressions and experiences have been. Make an informed decision BEFORE you register for the course.

9.5 When you have to study, find a quiet place. Sometimes you have to hide from distractions like friends. Tell others you are working and ask them to leave you alone for a while. You can meet later to relax and have fun.

9.6 Take a break if you need it.

9.7 Review the day's notes when classes are over. Deal with questions about class material when it's fresh. In this way you'll avoid the need to cram for tests.

9.8 Set up a study schedule that includes a few hours each day and stick to it.

9.9 Promise yourself that you'll have fun only IF you study for a period of time. By all means relax and enjoy yourself AFTER you reach your goal.

9.10 Take frequent short breaks. Studies have shown that people can concentrate for about 30 minutes before they lose focus. When you get to the point where your mind starts to wander, get up, take a walk and come back.

9.11 Sometimes working with others can help you illustrate which material is understood by you and which isn’t. If you can answer questions and explain concepts to others, it means you know the subject well. Otherwise you'll realize that you need to study some more.

9.12 Be cautious about working with others. Sometimes certain members will actually provide a distracting force. Carefully choose with whom you will work.

9.13 Cycle between working alone and working with others. Work alone
to master concepts and information. Work with others to test your true understanding.

9.14 Learn to manage your time. Don't let it manage you.

9.15 Prioritize your tasks.

9.16 Don't postpone the small tasks (a sense of accomplishment is good and overlooked small tasks can become larger tasks.)

9.17 Read for comprehension, rather than just to get to the end of the chapter.

9.18 Do the most difficult work first, perhaps break it up with some easier tasks.

9.19 Don't wait until the last minute to complete your projects.

9.20 Lastly, have a positive attitude!
